STRAW WATTLES — The Green Alternative to Silt Fence

STRAW WATTLES

VS.

Silt Fence

- ✦ Tubular photodegradable mesh netting
- ✦ Material breakdown in 18-24 months
- ✦ Can be left in place indefinitely adding organic matter for re-vegetation efforts
- ✦ 9" – 12" diameter blends with surrounding landscape
- ✦ Cost Efficient = \$0.80/ft, quick & simple installation

UV stabilized polypropylene
(non-biodegradable)

Synthetic polypropylene resists
degradation for more than 50 years

Must be removed and disposed of

24" – 36" height is obtrusive and
must be maintained often

Cost of installation exceeds \$1.00/ft,
not including additional costs of
repair and maintenance

Recognized by EPA as Best Management Practice (BMP)

"Keeping Family Farms an American Tradition"
